

Exchange procedure:

If you have a 5 gallon (BBQ grill size) propane bottle you wish to exchange, you can perform this transaction at any register. Just tell any cashier that you need to exchange a tank, and someone from our staff will be with you shortly to take care of your propane needs.

Refill procedure:

If you have a bottle or an RV that needs refilling, enter our lumberyard using our 23<sup>rd</sup> street entrance. Once in the yard, drive around to the other side and park your vehicle. Someone from our lumberyard will be with you shortly to take care of your propane needs.

\*\*\*M&D Supply must perform a thorough inspection of your tank before an exchange or refill can be performed. Some tanks may be denied due to the Texas Railroad Commission regulations. In these cases, M&D Supply offers \$5 off the purchase of any new tank.
